Subject: Related to our discussion - upcoming NIT call

FYI – see Roberta’s note on GKM discussions. I sent a note to Steve (who is the R8 NIT member) to see if he’s planning to call in...haven’t heard back.

Subject: NIMS INTEGRATION TEAM CONFERENCE CALL

Hi everyone – it seems to have been a very busy summer for everyone! I hope you’re starting to wrap up site work and can get some time back in your office. It’s been awhile since we’ve had a NIT conference call, so I’d like to go ahead and get a call scheduled for

OCTOBER 13TH AT 3:00 EST

I’ll be sending out a calendar invite.

Please take a look at the proposed agenda and let me know if I’ve left something off. Chris is still working with the RMs on guidance for the direction of the NIT, so I’m leaving that off the agenda until we can schedule a face to face meeting. I think we will have more than enough to discuss with the Gold King Mine response. I’ve also invited Chris Ruhl, who acted as Area Commander for the response, to join us on the call.

- Report out from HQ and the regions on ICS activities (All)

- Report out on training and exercises (JoAnn)
 - IC and OPS completed; still need SITL and ENVL
 - Upcoming exercises
- Report out on implementation of ICS during the King Gold Mine response, capturing Lessons Learned and development of After Action Report (Calanog, Ruhl, et al)
- Present proposal to develop Area Command guidance, training and exercises (Roberta)
- SSC course (Elise)
- Discussion on re-invigorating the Shadowing Program (Roberta)
- Potential meeting in 2016?

As always, thank you for your time.

Roberta
